2019 Toyota Camry SE 4D Sedan Loss In Value Case Study

Wednesday, December 28, 2022.

The 2019 Toyota Camry is a compelling family-sedan option with lots to offer in the right circumstances. Offering one of the most fuel-efficient engines and an eco-friendly hybrid version, this car appeals to people looking for a car that is kinder to the environment. However, performance isn't as good as more sporty cars like the Honda Accord or Mazda 6. The ride is comfortable and handling competence is solid, though. While it has its shortcomings, there's no arguing that the latest generation of Toyota Camry has been reborn.

The Camry is available with a four-cylinder engine, and a 2.5 L engine size, with a smooth ride and surprisingly responsive handling. On the highway, the Camry is comfortable and compliant. In addition to that, it has excellent fuel economy, returning up to 45mpg on the highway.

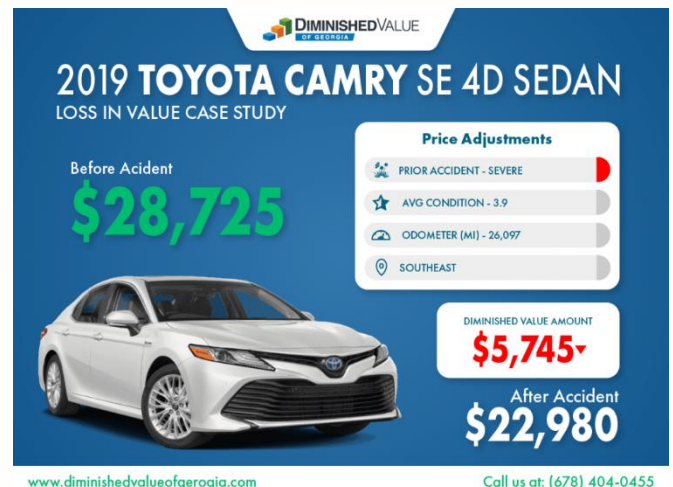

Different from the 2018 model, it brings new features such as Apple CarPlay. The 2019 model includes a Wi-Fi hotspot and a three-year subscription to Safety Connect, which provides roadside assistance and emergency assistance by phone.

Toyota's Camry received five-star ratings from the NHTSA and IIHS, earning the Top Safety Pick+ award for 2018. We applaud Toyota's decision to standardize driver-assistance technology across its lineup. It comes with forward collision warning and automated emergency braking, lane departure warning and lane-keeping assist, as well as adaptive cruise control.

With its well-priced base model and modern features, the 2019 Toyota Camry is a great choice if you're looking for something with a bit more class and space than a small sedan.

Was Your 2019 Toyota Camry SE In An Accident?

You were on a regular day and had a car accident. Did you know that a wrecked and repaired car can lose \$5,745 or more in value? Regardless of fault, you're entitled to the reduction in value!
