2022 Dodge Charger Loss in Value Case Study

Tuesday, June 27, 2023

The 2022 Dodge Charger stands out as the only V-8-powered sedan in its class, offering an attractive starting price. While the Chrysler 300 also has a V-8 engine and rear-wheel-drive layout, it comes at a higher price point with a more luxurious feel. The Charger, though less refined with questionable interior quality and a firm ride, has a standard V-6 engine and optional all-wheel drive, just like its coupe counterpart, the Dodge Challenger.

What sets the Charger apart is the thunderous Hemi V-8 engine under the hood, available in 370-hp 5.7-liter or 485-hp 6.4-liter variants. The Scat Pack model, with the 6.4-liter engine, offers a distinctive widebody appearance and stands as the sportiest non-SRT option. While not for everyone, the 2022 Charger exudes nostalgic character for those seeking a throwback sedan experience.

With the discontinuation of the Toyota Avalon and limited competition from other domestic brands, the Dodge Charger practically owns the full-size sedan segment.

Dodge continues to impress by offering a wide range of engines, performance options, and personalization choices, demonstrating its commitment to the Charger's ongoing success.

The Charger earns its reputation as a good car with powerful engine options that make it unique in the large car class. It provides decent ride and handling, spacious and comfortable seating, a roomy trunk, and user-friendly infotainment features. However, some downsides include a bland cabin, unimpressive fuel economy, and a history of subpar safety scores.

If you desire the most horsepower in a four-door sedan, the Charger is the perfect choice. With various price points and powertrain options, you can easily find a combination that suits your budget and performance preferences.

Was Your 2022 Dodge Charger in an Accident?

You were on a regular day and had a car accident. Did you know that a wrecked and repaired car can experience diminished value, resulting in a decrease of \$9,445 or more in its worth?

Diminished Value Calculator	
Before Accident Cash Value	\$47,225
After Accident Cash Value	\$37,780
Diminished Value	\$9,445
