The 2022 Nissan Kicks presents an enticing option for budget-conscious SUV enthusiasts. Despite its compact exterior, the Kicks surprises with a spacious interior, making it an attractive choice for those seeking affordability without sacrificing comfort. Powered by a fuel-efficient four-cylinder engine coupled with a continuously variable automatic transmission, the Kicks solely offers front-wheel drive, deterring off-road ambitions. However, when compared to pricier counterparts like the Mazda CX-30 and Volkswagen Taos, the Kicks' powertrain lacks refinement and might feel underpowered during highway merges.

Appraiser Blog

The Kicks assumes its position as Nissan's smallest SUV, situated beneath the Rogue Sport in the lineup. Remarkably affordable, it doesn't compromise on must-have features for economical buyers, delivering standard infotainment and safety technologies. Yet, performance-wise, its engine's limited power and absence of all-wheel drive invite skepticism about its SUV classification.

Drawing parallels with the Hyundai Venue and Kia Soul among subcompact SUVs, the Kicks faces stiff competition. The Hyundai Kona, Chevrolet Trailblazer, and Mazda CX-30 offer enhanced value and performance for a slightly higher investment. Ultimately, the 2022 Nissan Kicks shines as a cost-effective choice, emphasizing a roomy cabin and an array of standard tech features including Apple CarPlay, Android Auto, and driver assistance systems.

Was Your 2022 Nissan Kicks in an Accident?

It was just a regular day when you had a car accident. Did you know that a wrecked and repaired car can experience diminished value, resulting in a decrease of \$5,065 or more in its worth?
