What's Diminished Value?

In simple terms, diminished value is the drop in your car's resale value after it's been in an accident and fixed. Even if a car is expertly repaired, its history of damage can lower its resale value. This is a big deal for fancy cars like the Corvette because even a small bump can lead to a big drop in what it's worth.

Was Your 2023 Chevrolet Corvette in an Accident?

Picture this: your brand new 2023 Corvette gets into a scrape. It's fixed up and looks as good as new, but when it comes to selling it, buyers might not offer as much because it's been in an accident. That's where diminished value comes into play. In some instances, the potential loss in value could be as high as \$19,665!

Diminished Value Calculator	
Before Accident Cash Value	\$98,275
After Accident Cash Value	\$78,620
Diminished Value	\$19,665

Step 1: Understanding Your Claim

To start, it's essential to comprehend the diminished value claims process. It's all about figuring out how much value your car has lost. Usually, we look at "inherent diminished value," which is the value loss just because your car was in an accident.

Step 2: Getting the Right Price

An accurate appraisal is critical. Our team at Diminished Value of Georgia offers a detailed [Appraisal Method](#) that considers factors unique to your Corvette. Remember, each car's diminished value is different. For instance, a 2023 Corvette's value loss will differ from that of a [Tesla Model Y](#). To discover your car's loss in value click the link and get a [FREE Claim Review](#) or call [\(678\) 404-0455](tel:(678)404-0455).
