

Last week we made changes to Buy Now to streamline sales for both Buyers and Sellers. Here's what you need to know:

- **No more offers on Buy Now.** Every vehicle will be available for the visible floor price.
- **Make sure you input a floor price.** No-sales* with a floor price will automatically be listed in Buy Now for a second chance to sell.
- **Opt into Buy Now.** If you want your vehicle to automatically move into Buy Now in the event of a no-sale, ensure it's enabled in your Settings.

We've also moved the floor price input to the Overview section on web and the Overview page on mobile.

If you're on your phone, make sure to update your mobile app to TradeRev 4.30 using the links below.

Sign In

* If you've opted into Buy Now and no bids were placed or the pending timer expired with no action, your vehicle will automatically move to Buy Now.

REVOLUTIONIZING AUTOMOTIVE SALES
